

FKS - 2 'sun-select' solar collector

Dimensions:	
Height:	1991 mm
Width:	1030 mm
Depth:	98 mm
Weight:	39 kg
Surface area gross:	2.05 m ²
Absorber area effective:	1.9 m ²
Top connections:	2 x 18 mm
Performance:	
Absorber coating:	sun-select
Absorption:	95%
Emission:	5%
K1:	3.47 W/m ² K
K2:	0.02 W/m ² K
Conversion factor:	0.789
Fluid volume:	1.1 l
Max. pressure:	6 bar
Max. temperature:	215°C

One of the most efficient flat-plate collectors on the market today.
Available for any type of installation.
Double-walled aluminium frame with extra insulation.

- 'SUN-SELECT' absorber coating
- 4 mm low iron solar safety glass
- 50 mm mineral wool insulation
- Low weight - High performance
- Tested and approved by the TÜV -German Technical Standards Authority
Complying with EN norm
Solar Keymark certified
- 10 year manufacturers guarantee
- Made in Germany
